### **The Airport Connector Road (ACR)**

The Airport Connector is a planned 4-lane divided, two (2) mile long highway that is to provide a direct link between the Owen Roberts Airport and the Esterley Tibbetts Highway.

Section 1 of the ACR which extends from the Esterley Tibbetts Highway to Alie B Drive is now just a few weeks away from completion. Section 1 costs approximately \$10.2M.

By the end of October 2023 motorists will be able to access North Sound Road and the Esterley Tibbetts Highway using Section 1 of the ACR, Alie B Drive, Lincoln Dr and Sparky Drive as illustrated below:

Section 3 of the ACR will be completed in 2024 providing additional alternative access adjacent to the George Town Yacht Club.

The NRA is also actively working on providing a link road from Lincoln Drive to Seymour Road that will serve to relieve the congestion currently experienced at the intersection of Seymour Road and North Sound Road by Canon Place.

Base Layer being prepped for paving in October
